📁 PROJECTS

Frontend Developer

Ed-Gate

During our third year at ESI-SBA, we created a platform specifically designed to manage final study projects (PFE), focusing on startups and patents. I took on a crucial role as a front-end developer, using React.js and Tailwind CSS for the frontend development.

Daresni

As part of our fourth-year project at ESI-SBA, we developed an e-learning website that offers courses and resources for learning the Arabic language. We used Next.js and Tailwind CSS for the frontend.

Shopper

To enhance my knowledge and skills in line with current trends, I created an e-commerce website for online shopping that sells clothing for men, women, and children. I used React.js and Tailwind CSS for the frontend development.

Backend Developer

Daresni

I took the lead in developing the forum and messaging components, utilizing Node.js to ensure efficient real-time communication and seamless user interactions. This involved implementing features such as user authentication, message handling, and data storage to provide a robust and interactive experience for users
