About Me

I'm a 4th-year student at ESI Sidi Bel Abbès, specializing in Information Systems and Web. I specialize in building websites, serving as both a frontend and backend developer. Additionally, I am working on improving my skills in UI/UX design and mobile app development.

Projects

Daresni
Feb-june 2024
ESI SBA

Frontend and Backend developer(micro-services)
- As part of our fourth-year project at ESI-SBA, we developed an e learning website that offers courses and resources for learning the Arabic language. We used Next.js and Tailwind CSS for the frontend.
- I took the lead in developing the forum and messaging components, utilizing Node.js to ensure efficient real-time communication and seamless user interactions

Shopper
Nov -Dec 2023

Frontend developer
- to enhance my knowledge and skills in line with current trends, I created an e-commerce website for online shopping that sells clothing for men, women, and children. I used React.js and Tailwind CSS for the frontend development

Ed-Gate
Feb - june 2023
ESI SBA

Frontend developer
- During our third year at ESI-SBA, we created a platform specifically designed to manage final study projects (PFE), focusing on startups and patents. I took on a crucial role as a front-end developer, using React.js and Tailwind CSS for the frontend development.

Medon
Feb - june 2022
ESTIN BEJAIA

Frontend and Backend
- We created a website for medication donation (drugs donation) using HTML and CSS for the frontend and Java for the backend.

Some other mini-projects

- A mini app for managing students (CRUD operations) with Angular and Node.js .
- Several mobile applications such as a music player, prayer app, note taker app, and flashlight controller app.
- UI/UX designs using Figma, including a sports website design, e-shop website, and dashboards for an e-education website.

Soft Skils

- Effective Communication: Strong verbal and written communication abilities
- Collaborative Teamwork: Proven ability to work well in team environments.
- Analytical Problem-solving: Excellent critical thinking and problem-solving skills.
- Creativity: Innovative thinking and creativity in developing solutions.

Education

2 years of preparatory classes
Nov 2020 - june 2022

The Higher School of Computer Science and Digital Technologies of Bejaia(ESTIN)

2 years of advanced classes
sep 2022 - now

The Higher School of Computer Science of SBA(ESI)

Languages

- Arabic (Native)
- French (Proficient)
- English (Proficient)

Volunteer work

- I worked in the ByteCraft Club at ESTIN Béjaïa for 1 year, where I volunteered to organize two events. Through this experience, I learned how to collaborate effectively and improved my communication skills
